

Mr. Wilcox,

It has been an honor to meet you, uninformally, and to learn from someone who was actually in the second world war than from a text book. (You don't always meet legends). I feel that all of the ~~infer~~ information you gave us today, May 24, 2009, is useful and would have been easily used by us ~~in~~ during the AP Exams for U.S. History. I would also like to thank you for reminding us what service in ~~an~~ any branches of the U.S. Army really means and what it really stands for - liberty. This encounter with you has been outstanding and more educational than reading from a book, and indeed it was fun and funny.

With Gratitude,

~~Cesar A. Castro~~
