

Dear WWII hero,

I was honored to hear your post about the time you were on the time WWII was going on. I appreciate hearing you talk about the time when Mr. Walenta asked you about "What did you think about the U.S. dropping the bomb". And I agree by what you said its a war someone has to lose, it was either them the Japanese or us the U.S. And also, you made me laugh when you drank the green blood, that you thought was seal oil. You a brave (Brave) honorable man sir. Sitting in the ocean for 6 day, very brave.

Sincerely David
